Feeding of weather forecasting data in the super computer

12. SHRI SUBAS MOHAN-TY : Will the PRIME MINISTER be pleased to state :

(a) whether adequate and accurate data for weather forecasting is being fed into the super computer installed recently at Delhi ;

(b) whether experts have expressed doubts about the accuracy of the data being collected ; and

(c) if so, what steps are being taken to improve the data collection?

THE MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY AND THE MINISTER OF STATE IN THE DEPARTMENTS OF OCEAN

DEVELOPMENT, ATOMIC ENERGY, ELECTRONICS AND SPACE (SHRI K. R. NARAYANAN) : (a) The Global meteorological data received in New Delhi is identical to the one available in any other meteorological office in the World. However, the Supercomputer installed in Delhi is at present in a research mode for development of models for medium range weather forecasting which does not require real time operational date at present.

(b) and (c) Any geo-physical observation such as upper air data has intrinsic uncertainty and hence often is a matter of subjective assessment even among experts Data quality both national and international are therefore kept under close scrutiny and review. The efficien-' cy of collection of global data at India Meteorological Department, New Delhi has significantly improved with the recent installation of the more powerful message switching. computer.
